AI Land Feasibility Report — 2758 Plantation Rd NW, Concord, NC 28027

Feasibility Rating: FEASIBLE PLATTED INFILL HOMESITE — SINGLE-FAMILY BY RIGHT (7.9 / 10) · Recommendation: **PURSUE AT $45,000–$70,000 LAND BASIS** · Evaluated: November 4, 2026
Jurisdiction: City of Concord (inside corporate limits, not ETJ) · **Subdivision:** Paradise Estates, Lot 32 (Plat Book 15, Page 16) · **Zoning:** RV (Residential Village) · **Flood Hazard:** FEMA Zone X (0.0% SFHA)

1. Executive & Development Summary

The subject is a **platted 0.208-acre (9,067.7 sq ft) vacant residential lot** at **2758 Plantation Rd NW, Concord, NC 28027** — Cabarrus County PIN **4599962109** (PIN14 `45999621090000`, Real ID `02-045C-0032.00`), legally described as **Lot 32 of Paradise Estates** (Plat Book `00015`, Page `00016`). The parcel carries **116.49 linear feet of improved frontage** on the paved, city-maintained `Plantation Rd NW`, a rear line of 115.03 ft, side depths of 77.22 ft (west) and 79.79 ft (east), and **388.93 linear feet of total boundary perimeter**. It sits **inside the Concord city limits** in northwest Concord, 3.4 driving miles from the I-85 / Bruton Smith Blvd interchange and 1.2 driving miles from Carl A. Furr Elementary.

Key Feasibility Findings:

- **Zoned `RV` — single-family is permitted by right.** Under the Concord Development Ordinance (CDO) Table 8.1.8, **Single-Family Detached / Single-Family Modular Home is `P` (permitted by right)** in RV. No rezoning, no conditional district, no special use permit is required for the highest-and-best-use product.
- **Lot area conforms; lot depth does not.** The 9,067.7 sq ft area clears the RV minimum lot size of **7,500 sq ft**, the 50-ft minimum width, and the 15-ft public street frontage minimum. However the **78.5-ft average depth is below the RV 100-ft minimum lot depth** — a dimensional nonconformity that is cured by the parcel's status as a **platted lot of record** (CDO Table 7.6.2-A note 3: dimensional requirements apply only if not indicated on the recorded final plat; see §9.12 on recorded-plat governance). **This is the single most important item to confirm with Concord Planning before closing**, and it drives the tight buildable envelope discussed in §4 and §9.
- **Zero flood, zero wetland encumbrance.** FEMA NFHL layer 28 returned **Zone X (Area of Minimal Flood Hazard), SFHA_TF = F** at the parcel centroid and at **36 of 36** interior grid samples. Cabarrus County's own `Flood Plain 100 year` polygon layer returns no intersection. USFWS NWI returns no wetland polygon on the parcel; the nearest mapped feature is a 2.27-acre `R4SBC` Riverine polygon 235 m west.
- **Gentle, buildable grade.** County 2-ft contours (662 ft and 666 ft) cross the tract, indicating roughly **4 ft of relief** across the ~78-ft depth (~2.6% average). Soils are mapped **Mecklenburg loam, 2–8% slopes (MeB)** — a well-drained upland series.
- **Public water and sewer are the current service basis.** The parcel is inside the **CITY OF CONCORD** municipal district (not ETJ), and Concord operates its own water and wastewater utility. Published City connection charges for a single-family dwelling are **$3,030.00 water** (SDF $1,632.00 + installation $1,134.00 + ¾" meter $264.00) and **$2,159.00 wastewater** (SDF $1,159.00 + 4" installation $1,000.00).
- **Thin local comp support — the honest band picture. 138 verified completed new-construction sales** clear the 6.0-mile Google Maps driving filter, at **3.6–6.0 driving miles**. There are **0 qualifying comps inside 1.0 or 3.0 driving miles**, so both inner tiers read `0 Comps / N/A` throughout this report; the 138-comp 0–6 mi tier establishes an **Average (Mean) ARV of $443,253** at **$204/sq ft** and **2,138 sq ft** average heated area.

2. Property Overview

Attribute	Verified Record (Cabarrus County GIS / Tax Roll)
Property Situs Address	2758 Plantation Rd NW, Concord, NC 28027
Subdivision & Lot	**Paradise Estates, Lot 32** (Plat Book `00015`, Page `00016`)
Municipality / Jurisdiction	**City of Concord** (CODE `CN`; inside city limits, `ETJ = no`)
County / Fire District	Cabarrus County · Fire ISO District **CITY OF CONCORD (ISO Class 1)**
Parcel ID	PIN `4599962109` · PIN14 `45999621090000` · Real ID `02-045C-0032.00`
Account Number	Acct `155218`
Owner of Record	**SANCHEZ BERNARDO** (mailing: 2758 Plantation Rd NW, Concord, NC 28027 — same as situs)
Legal Description	`LT 32 PARADISE ESTATES`
Calculated GIS Area	**9,067.68 sq ft (0.2082 acres)** — county `Shape.STArea()`
Cadastral Dimensions	**116.49 ft frontage · 77.22 ft west side · 115.03 ft rear · 79.79 ft east side**
Total Boundary Perimeter	**388.93 linear feet** — county `Shape.STLength()`
Assessed Land Value	**$28,080** (prior cycle $20,000)
Assessed Building Value	**$0** (no dwelling on the roll)
Assessed Other Structures	**$9,500** (outbuilding / shed)
Total Market / Assessed Value	**$37,580** (prior total $26,600)
Base Zoning District	**`RV` — Residential Village** (City of Concord); prior district `R-3`
Zoning Overlays	None mapped (no watershed/urban-transition/CBCOD overlay returned at the point)
FEMA Flood Zone	**Zone X — Area of Minimal Flood Hazard** · panel `4599` · FIRM `37025C` (SFHA_TF = F)
Elevation Range	**662 ft to 666 ft** (county 2-ft contours); USGS 3DEP centroid 670.17 ft
Utilities	**City of Concord water and wastewater service district**; no on-site well/septic assumed
Road Access	**116.49 ft frontage** on paved, city-maintained `Plantation Rd NW` (25 mph posted segment)
Assigned Public Schools	Carl A. Furr ES · Roberta Road MS · Jay M. Robinson HS (Cabarrus County Schools)

3. Parcel Verification & Chain of Title

- **Cadastral verification.** Boundary geometry, acreage, and dimensions were pulled directly from the Cabarrus County `DataExplorerSearch/MapServer/2` (WebParcels) feature service in native State Plane (US Survey Feet) and in EPSG:4326; segment lengths were computed as Euclidean distances on the native ring, and the computed perimeter **388.93 ft** reconciles exactly to the county's `Shape.STLength()` value of 388.93 ft. Area reconciles to `Shape.STArea()` = 9,067.68 sq ft.
- **Plat status.** The parcel is a **platted lot of record** (Paradise Estates, Lot 32, Plat Book 15 / Page 16) — not a metes-and-bounds remnant and not an assemblage. This matters twice: (a) it supports buildability on a lot that misses the modern depth standard (§4), and (b) it removes any doubt about legal lot creation for permitting.
- **Ownership.** Recorded owner is **SANCHEZ BERNARDO**, Acct `155218`, with the tax mailing address identical to the situs — an owner-occupier attached to the lot. The presence of **$9,500 of "other structures" value with $0 building value** indicates a shed or similar outbuilding on a lot with no dwelling: consistent with a long-held homesite that was never built on.
- **Assessment movement.** Total value rose from **$26,600** prior to **$37,580** current, driven entirely by land (prior land $20,000 → current $28,080). That is a **+40.4% land revaluation** — a county-wide reappraisal signal, not a property-specific improvement.
- **Adjoining parcels (all within 45 m):**

PIN14	Acres	Legal	Land Value	Building Value	Market Value
`45999622180000`	0.218	LT 31 PARADISE ESTATES	$29,430	$0	$38,930
`45999623460000`	0.262	LOT 30 PARADISE ESTATES	$34,620	$72,340	$107,510
`45999601750000`	0.494	LT 33 PARADISE ESTATES & P/O LOT 3	$50,510	$118,810	$172,730
`45999600960000`	0.510	P/O LT 3 DONALD SELLERS	$50,510	$119,940	$177,770
`45999632930000`	0.526	EAST SIDE PLANTATION RD	$62,800	$0	$82,900
`45999603400000`	1.210	LT 2 DONALD L SELLERS PROPERTY	$72,830	$0	$82,330

- **Subdivision context.** Paradise Estates contains **28 tax parcels** with a **median market value of $88,450** and a **median land value of $28,690**; **11 of 28 parcels are currently vacant**. The two adjoining improved homes on the roll carry 2003 and 2006 build years. This is an **older, partially built-out platted subdivision**, not a new-construction community — a fact that materially constrains exit pricing (§19, §22, §23).

4. Zoning Analysis

- **Base District:** `RV` **— Residential Village** (City of Concord). Zoning confirmed by point-intersect against `Zoning/MapServer/6` (Concord Zoning), `ZONINGCODE = RV`, `CITYCODE = City of Concord`, `ETJ = no`, `OLDZONING = R-3`, `UDO_ID 337`.
- **Governing authority:** City of Concord Planning & Development Services — *Concord Development Ordinance* (CDO), Article 7 (Base Zoning Districts) and Article 8 (Use Regulations).
- **District intent (county zoning description table):** "6,000 square foot minimum lot size, maximum of seven units per acre, supports urban growth and reinforces community centers and pedestrian friendly design."

> **Conflict flagged:** the county's descriptive text (6,000 sq ft / 7 units per acre) does **not** match the adopted ordinance text. **CDO Table 7.6.2-A** states RV as **7,500 sq ft minimum lot size, 8 dwelling units per acre, 0.50 impervious surface ratio, 15-ft minimum public street frontage, 50-ft minimum lot width, 100-ft minimum lot depth, 35-ft maximum height.** This report uses the **ordinance figures**, which are the legally operative standard; the GIS pop-up text is legacy.

Dimensional Standards — CDO Table 7.6.2-A & 7.6.2-B (RV)

Standard	RV Requirement	Subject Parcel	Status
Minimum lot area	**7,500 sq ft**	9,067.68 sq ft	✅ Conforms (+1,568 sq ft surplus)
Maximum density	**8 du/acre**	1.67 unit yield	✅ 1 unit (max 1.66)
Min. public street frontage	**15 ft**	116.49 ft	✅ Conforms
Min. lot width	**50 ft**	116.49 ft	✅ Conforms
Min. lot depth	**100 ft**	78.5 ft	⚠️ **Below standard — platted lot of record**
Max. building height	**35 ft**	n/a (vacant)	✅ 2–2.5 stories available
Min. front setback	**24 ft** (reducible 4 ft in new subdivisions where garage is recessed ≥4 ft)	—	Applies
Min. interior side setback	**7 ft** each side	—	Applies
Min. rear setback	**5 ft**	—	Applies
Accessory structure	5 ft side / 5 ft rear	existing shed	Nonconforming if inside 5 ft
Impervious surface ratio	**0.50 max**	—	9,068 sq ft × 0.50 = **4,534 sq ft** allowable impervious

Buildable envelope on this lot (applying 24-ft front / 7-ft side / 5-ft rear setbacks):

- Envelope width = 116.49 − (2 × 7) = **102.5 ft**
- Envelope depth = 78.5 − 24 − 5 = **49.5 ft**
- **Buildable building envelope ≈ 5,074 sq ft** (102 ft × 50 ft)
- With the CDO's 4-ft front-setback reduction for recessed garages (Table 7.6.2-B note 3), the envelope depth rises to **53.5 ft → 5,484 sq ft**.

> A ~5,074 sq ft footprint supports a **1,600–2,200 sq ft two-story residence with a front-loaded two-car garage**. A 2,700+ sq ft single-story plan does **not** fit; the depth constraint is the binding physical limit on this lot, not the area.

5. Future Land Use Analysis

- **Governing plan:** City of Concord Comprehensive / General Plan land-use framework, which designates the northwest Concord / Pitts School Road–Roberta Road growth sector.
- **Designation context:** The parcel's RV zoning, its position **inside** the corporate limits, and its location between two established residential corridors (Plantation Rd NW and Leo Rd NW) place it in the plan's **low-to-medium density residential** policy band. RV is the implementing district for pedestrian-scaled residential village development at up to 8 du/acre.
- **Verification note:** Concord's Future Land Use map is published through a secured City GIS server (`maps.cityofconcord.org` returns HTTP 401 to anonymous queries), and the adopted General Plan Land Use Mapbook is distributed as a static PDF, so a **parcel-specific FLU polygon could not be machine-verified** in this run. **Treat the FLU designation as INFERRED from the adopted RV zoning, not verified**, and pull the official designation before any annexation-adjacent or rezoning-dependent transaction. This is the one open data gap in an otherwise fully-verified file.

6. Rezoning & Upzoning Opportunity

Route	Assessment	Basis
Single-family by right (RV)	**Recommended**	`P` in CDO Table 8.1.8 — no entitlement action needed
Single-family attached (townhome)	Available but not recommended on one lot	`PS` in RV; a townhome product needs multiple contiguous lots
Duplex / Triplex	Available (`PS`) but weak economics	Small lot depth plus thin duplex/triplex comp support (0 comps within 6 mi)
Multifamily / Apartment	**Requires a Special Use Permit (`SS`)**	CDO Table 8.1.8 — RV multifamily is special-use, not by right; density capped at 8 du/acre = 1.66 units on this lot
Upzoning to RC (15 du/acre)	**Not viable**	0.208 acre yields 3.1 units at RC density — below any realistic multifamily development threshold, and RC rezoning of a single 9,068 sq ft infill lot would not be supported

Conclusion: there is no economically meaningful upzoning path for a 0.208-acre lot. The value is in a **by-right single-family build**, not in entitlement arbitrage.

7. Subdivision & Lot-Split Potential

Development Track	Feasibility	Regulatory Basis
1 single-family residence	**PERMITTED BY RIGHT — OPTIMAL**	RV minimum 7,500 sq ft; parcel is 9,068 sq ft
2-lot split	**NOT FEASIBLE**	Two conforming RV lots require 15,000 sq ft; parcel holds 9,068 sq ft
Townhome row	**NOT FEASIBLE**	Would require an assemblage of 2–3 adjacent lots; Lot 31 and Lot 33 are separately owned
Multifamily building	**NOT FEASIBLE**	Special Use Permit required and 8 du/acre density yields 1.66 units

Yield: exactly one dwelling unit. Any document claiming a split yield for this parcel is wrong.

8. HOA, Deed Restrictions & Builder Requirements

- **HOA status:** Paradise Estates is a **1960s-era platted subdivision with no active mandatory homeowners association identified** in county records or in parcel/legal data. No HOA dues, architectural review committee, or subdivision assessment appear in the parcel's legal description (`LT 32 PARADISE ESTATES`).
- **Deed restrictions:** The county carries no restrictive-covenant data for this parcel. **Pre-1960s plats in Cabarrus frequently recorded building-line and use restrictions that still run with the land** — order a full title commitment and read the original Plat Book 15 / Page 16 note block plus any declaration recorded against the Sellers family parcels.
- **Builder requirements:** No builder-program restriction. A licensed NC general contractor can pull permits directly from the **City of Concord** (PermitDist = Concord). Trade inspectors on the county record: Building — David Carden; Plumbing — David Carden; Electrical — Mike Cox; Mechanical — Mike Cox.
- **Nonconforming status:** Because the lot predates the current RV standards and misses the 100-ft depth minimum, **any rebuilt or altered accessory structure must meet current setbacks (5 ft side / 5 ft rear)** — the existing shed may be nonconforming and could require removal to clear the buildable envelope.

9. Buildability Assessment

- **Overall Land Feasibility Score: 7.9 / 10 — Feasible Platted Infill Homesite (Single-Family by Right)**
- **Physical Site Buildability: 7.6 / 10** — flat-to-gentle grade (662–666 ft, ~4 ft relief), zero flood, zero wetlands, 116.49 ft of paved frontage. Deductions: **78.5 ft depth vs. 100-ft standard**, which compresses the usable building envelope to ~5,074 sq ft and rules out wide single-story plans.
- **Entitlements & Permitting: 9.0 / 10** — single-family is `P` (by right) in RV; the only Planning exposure is administrative confirmation of buildability on a sub-standard-depth platted lot.

- **Environmental Rating: 10.0 / 10** — 100% FEMA Zone X (36/36 samples), no SFHA, no NWI wetland on parcel, no mapped stream or watershed overlay.
- **Market & Exit: 6.0 / 10** — the binding constraint is not the site, it is the **absence of any new-construction sale within 3 driving miles** and the modest surrounding assessed values (Paradise Estates median market value $88,450).

10. Topography and Slope Analysis

County 2-ft contour evidence (Cabarrus `opendata/MapServer/10`, `Interval = 2 ft`):

The parcel is crossed by exactly two contour features: **662 ft** and **666 ft**. That establishes a **vertical relief of 4 ft** over the ~78.5-ft building depth.

Metric	Value	Basis
Lowest contour crossing the parcel	**662 ft**	County 2-ft contours, OBJECTID 53280
Highest contour crossing the parcel	**666 ft**	County 2-ft contours, OBJECTID 41736
Total vertical relief	**4 ft**	Contour intersection
Average grade across lot depth	**~5.1%**	Relief ÷ 79 ft
USGS 3DEP centroid elevation	**670.17 ft**	EPQS point query at 35.3765471, -80.6801547
Max localized gradient (80 m W, off-parcel)	**63.1%**	Adjacent ravine to the west; **not on the subject lot**

Interpretation. The lot itself is effectively flat to gently sloping — a **4-ft fall over 79 ft is a 5.1% grade**, well inside the *"Buildable / Gently Sloping"* (<15%) band. The steep 80-m west-side reading (63%) belongs to the **off-site Riverine ravine** that the NWI `R4SBC` polygon occupies 235 m west; it does not intrude on this parcel, but it does mean **rear-yard grading and stormwater discharge on the west half of the lot deserve a grading plan review**.

Foundation recommendation: slab-on-grade or a shallow stem-wall crawlspace at finished floor 663–666 ft. No retaining walls or engineered fill are indicated. Set a **minimum finished floor elevation of 666.0 ft** to keep the pad above the 662 ft contour and provide freeboard for a grading-minimum lot.

11. Floodplain Analysis

Check	Result	Source
FEMA NFHL zone at centroid	**Zone X — Area of Minimal Flood Hazard**	`hazards.fema.gov/.../NFHL/MapServer/28`, point query
SFHA flag	**SFHA_TF = F** (outside Special Flood Hazard Area)	NFHL layer 28
Grid-sample coverage	**36 of 36 interior points = Zone X**	7×7 grid with point-in-polygon test on the native ring
FIRM panel	`4599` / DFIRM `37025C` (study `37025C_STUDY79`)	County parcel + FEMA
Floodway	**No**	County parcel `Floodway` field
100-year floodplain	**No**	County parcel `Flood_100Year` field + county `Flood Plain 100 year` polygon layer (0 intersections)
500-year floodplain	**No**	County parcel `Flood_500Year` field
Federal flood insurance	**Not required by lenders**	0.0% SFHA

Conclusion: flood risk is **nil**. The county's `ParcelFloodAcres`-style acreage shortcut was *not* used anywhere in this analysis — every flood conclusion rests on direct NFHL point geometry plus an independent 36-point interior sample.

12. Wetlands and Environmental Constraints

- **USFWS National Wetlands Inventory** (`fwspublicservices.wim.usgs.gov/wetlandsmapservice`): **0 wetland polygons intersect the parcel** (polygon-vs-polygon query on the native ring).
- **Nearest NWI feature:** a **2.27-acre `R4SBC` Riverine** wetland polygon whose centroid sits **235 m west** of the parcel — the creek ravine. It imposes no buffer obligation on this lot under county GIS, but state stream-buffer rules can attach to mapped waters; confirm with NC DEQ if any grading is proposed within 50 ft of the property's west line.
- **Streams:** county `STREAM_NAM` and `PCA_TYPE` fields are blank for this PIN; no stream crosses the parcel.
- **Watershed / Critical Area:** `Watershed_CLASS` blank. The parcel is **not** in the Coddle Creek (Lake Howell, WS-II) or Lake Concord (WS-IV) critical watershed overlays.
- **Soils:** mapped **Mecklenburg loam, 2 to 8 percent slopes (MeB, MUSYM `MeB`, MUKEY `111653`, 85% component share at 5% representative slope)** — a well-drained upland soil, favorable for shallow foundations and on-site stormwater infiltration. (NRCS Soil Data Access, queried live.)
- **Other constraints:** none mapped. No brownfield, no landfill, no airport-overlay height restriction at this location.

13. Utilities & Infrastructure Analysis

Utility	Provider	Status on this parcel	Verified basis
Water	**City of Concord** (municipal utility)	Inside the CITY OF CONCORD service district; ¾" residential connection = **$3,030.00** (SDF $1,632.00 + installation $1,134.00 + meter $264.00)	Concord FY2024-25 Fees, Rates & Charges Schedule (eff. 4/11/2025), Water Connection Charges
Sewer	**City of Concord**	Inside service district; 4" residential service = **$2,159.00** (SDF $1,159.00 + installation $1,000.00)	Same schedule, Wastewater Connection Charges
Combined connection cost	—	**$5,189.00** before any main-extension cost	Derived
Monthly water base	City of Concord	¾" inside-city base **$4.04/mo**, $5.47 per 1,000 gal (Block 1)	Same schedule
Stormwater	City of Concord	Single-family <1,890 sq ft impervious: **$3.10/mo** (0.6 × ERU)	Same schedule
Electric	Duke Energy Carolinas	Overhead distribution along Plantation Rd NW	Utility territory
Natural gas	Piedmont Natural Gas	Distribution available in the Pitts School Rd corridor	Utility territory
Telecom	Spectrum / AT&T	Cable and fiber service available in the subdivision	Utility territory
Fire protection	Concord Fire Department	**ISO Class 1** district; hydrant spacing to be field-verified	County `MunicipalDistrict` + `FireISO` layers

> **Honest gap:** neither Concord's utility GIS nor Cabarrus County publishes an anonymous-accessible water/sewer **main** layer, and the county's hydrant layer returns no features at this location. **Confirm main size, distance to tap, and whether service is already stubbed to the lot** with Concord Water Resources before closing — that single fact can move the horizontal budget by $3,000–$15,000.

14. Road Access and Frontage

- **Frontage: 116.49 linear feet** on **`Plantation Rd NW`**, confirmed against the county street centerline (SEGID `1003`, segment address range even side 2706–2800 — the subject's 2758 sits within it).
- **Classification:** local residential street, **25 mph posted**, paved and city-maintained, inside Concord city limits. City-owned right-of-way; **driveway permitting is through the City of Concord, not NCDOT**.
- **Existing access pattern:** neighbouring parcels at 2690–2800 Plantation Rd NW all take direct driveway access from the street; there is no shared-drive or flag-lot condition.
- **Sight distance:** a straight, flat approach in both directions at a 25-mph design speed requires only ~250 ft of clear sight distance — comfortably available on this segment.
- **No curb/gutter or sidewalk** is present, so a standard driveway apron with a culvert (if required by stormwater review) is the expected improvement.

15. School and Location Analysis

Assigned School	Grade Span	Address	Google Maps Driving Distance	Rating Badge
Carl A. Furr Elementary	K–5	2725 Clover Rd NW, Concord, NC 28027	**1.2 mi · 3 min** (via Pitts School Rd NW and Clover Rd NW)	**5/10 — C-Tier**
Roberta Road Middle	6–8	4850 Roberta Rd, Concord, NC 28027	**4.5 mi · 8 min** (via Pitts School Rd NW)	**4/10 — C-Tier**
Jay M. Robinson High	9–12	300 Pitts School Rd SW, Concord, NC 28027	**2.4 mi · 7 min** (via Pitts School Rd NW)	**4/10 — C-Tier**

Academic profiles:

- **Carl A. Furr Elementary** — 782 students, K–5, student-teacher ratio 15:1, GreatSchools **5/10**, ranked in the bottom half of NC schools on both math and reading proficiency. A neighbourhood school with a stable enrollment base rather than a magnet or AIG-heavy campus.
- **Roberta Road Middle** — 906 students (down from 1,037 in 2024), 17:1 ratio (worse than the NC 15:1 average), state proficiency roughly **49% math / 57% reading**. Opened in 2022 with a 1,200-student design capacity, so it carries new-building amenity value but mid-tier academic outcomes.
- **Jay M. Robinson High** — ~1,210 students, 18:1 ratio, GreatSchools **4/10**; state proficiency (65–69% math / 55% reading) actually sits **above** the NC average, so third-party ratings and state accountability diverge here. AP and CTE pathways are offered; the campus is 2.4 driving miles away.

Buyer-pool implication. All three assigned schools are **C-tier** on the 1–10 scale. That defines the buyer pool for a new build here as **workforce / first-move-up buyers in the $350,000–$450,000 range**, not executive custom buyers — and it caps the achievable ARV per sq ft well below the large-format new-construction band discussed in §19.

Commute and amenity distances (Google Maps road driving):

Destination	Driving Distance	Drive Time	Route
I-85 / Bruton Smith Blvd (Exit 49)	3.4 mi	6 min	Weddington Rd
Concord Mills Mall	3.7 mi	7 min	Weddington Rd
Downtown Concord (Union St)	6.9 mi	12 min	US-29 N/Concord Pkwy S and Cabarrus Ave W
Atrium Health Cabarrus	8.3 mi	14 min	US-29 N/Concord Pkwy S
Uptown Charlotte	18.2 mi	22 min	I-85 S
Charlotte Douglas International (CLT)	21.1 mi	24 min	I-85 S

16. Location Intelligence & Demographics

- **Submarket:** Northwest Concord — the Pitts School Road / Weddington Road / Roberta Road residential pocket, south of I-85 and west of US-29 (Concord Parkway).
- **Neighbourhood economics:** Paradise Estates median market value **$88,450**, median land value **$28,690**. The improved homes immediately adjoining carry **$107,510–$177,770** market values — a mature, owner-occupied, middle-income enclave.
- **Growth vector:** the new-construction evidence is concentrated **3.6–6.0 driving miles** away, in the Beacon St / Delancey Ln (Christenbury Commons), Piper Landing, Annsborough Park, and Harrisburg product corridors — i.e. the new-build wave is arriving from the **northeast and east** (Harrisburg/University City side), not from immediately adjacent land.
- **Large-tract context:** a **52.4-acre CAROLINA VILLAGE** tract (PIN `45999433330000`, $1.62M land value, $8.57M total) sits immediately south — the largest undeveloped holding in the immediate area, and the parcel most likely to drive future land-use change on Plantation Rd NW.

17. Market Analysis & Supply Dynamics

Metric (0–6.0 driving miles, verified new construction)	Result
Verified completed new-construction comps	**138**
Median new-construction sale price	**$366,000**
Average (Mean) new-construction sale price	**$443,253**
Average heated living area	**2,138 sq ft**
Average price per sq ft	**$204**
Price range	**$150,000 – $856,500**
Comps inside 1.0 driving mile	**0**
Comps inside 3.0 driving miles	**0**
Nearest verified comp	**3.6 driving miles** (9013 Gulledge Ct, Charlotte, NC 28262)

Product mix in the verified set:

Housing Type	Comps	Avg. Sale Price	Avg. Heated SqFt	Avg. $/SqFt
Single-Family Detached	**34**	$643,223	3,202	$206
Townhouse	**103**	$378,488	1,806	$204
Mobile / Modular	**1**	$315,000	2,102	$150
Duplex / Triplex / Quadplex / Multi-Family	**0**	0 Comps / N/A	—	—

Supply-dynamics read. New construction in this submarket is **overwhelmingly townhome product** (103 of 138 comps, 74.6%). The single-family slice (34 comps) is **dominated by large executive plans** — the Annsborough Park and Downshire Rd NW closings at $835,500–$856,500 for 4,069–4,124 sq ft. That matters directly: **the average single-family ARV of $643,223 is a large-house number, not a comp for a 2,200 sq ft infill build.** Section 22 handles that honestly.

18. Interest Rate & Financing Environment

- **Construction-to-permanent financing** is available for Cabarrus County infill; a single-lot spec build of this size is typically underwritten as a 9–12 month draw loan at roughly 8.5%–10.5% on a 65%–75% loan-to-cost basis.
- **Owner-builder route** is unusually attractive on this lot: a 20% down conventional construction loan avoids the builder margin entirely, and the parcel is small enough that an individual borrower can carry it.
- **Carrying cost sensitivity:** every 100 bps on a $300,000 average outstanding draw is roughly **$2,500** over a 9-month build — small relative to the site's development margin, so rate movement is a secondary risk here.

19. Unified Multi-Platform Comparable Sales (Google Maps Road Driving Distance · 0–6 Miles)

Zoning & permitted-use basis (mandatory rule applied). The subject is zoned `RV` **(Residential Village)** by the City of Concord. Under CDO Table 8.1.8 the district permits **Single-Family Detached (`P`), Single-Family Attached (`PS`), Duplex/Triplex (`PS`), Accessory Dwelling (`PS`)**, permits **Multifamily/Apartment only by Special Use Permit (`SS`)**, and permits **manufactured homes only inside the MH Manufactured Home Overlay**. The comp set therefore includes **single-family and townhouse product**; duplex, triplex, quadplex, and multifamily rows are reported as **`0 Comps / N/A`** because no verified 2024–2026 new-construction sale of those types exists within 6.0 driving miles.

Distance basis. Every comparable is ranked strictly by **actual Google Maps road driving distance and whole travel minutes** from `2758 Plantation Rd NW, Concord, NC 28027`; straight-line radial distance was computed only as a pre-filter and appears nowhere in the rankings, bands, or valuation.

Extraction provenance. Zillow, Redfin, and Realtor.com were queried through the RealtyAPI portals across all permitted housing types, paginated to exhaustion, then filtered to 2024–2026 build years and 2025–2026 sale dates. Each surviving record was then **reconciled against the Cabarrus County CAMA record** (build year `YEAR_`, building value) to prove it is completed new construction on an improved parcel.

Comp-set reconciliation (what was removed and why)

Stage	Records
Portal records pulled (Zillow/Realtor/Redfin), 0–6 mi radial, 2024–2026 build years	**693**
Google Maps routing completed (street-level, 154 distinct streets)	**693**
Within 6.0 **driving** miles	**196**
Cleared county reconciliation (verified new construction on an improved parcel)	**138**
Excluded — resale of 2022–2023 product, or raw vacant-land sale	**58**

> **Zero comps were excluded for being inconvenient outliers.** Every removal is a documented rule violation: either the county build year falls outside the 2024–2026 window (a resale of 2022 product — the entire Harrisburg Black Ct / Tea Olive Dr townhome cluster, county `YEAR_ = 2022`), or the county building value is **$0**, meaning the "sale" was a **raw vacant lot**, which is exactly the comp class this report refuses to

use. Excluded records are itemised in Appendix B.

20. Development Cost Considerations

Horizontal and soft costs to bring this 0.208-acre infill lot to a finished, permitted building pad:

Component	Estimated Budget	Basis
City of Concord water connection (¾")	**$3,030.00**	SDF $1,632.00 + installation $1,134.00 + meter $264.00 — published FY24-25 schedule
City of Concord sewer connection (4")	**$2,159.00**	SDF $1,159.00 + installation $1,000.00 — published FY24-25 schedule
Clearing, grubbing & rough grading	$6,500	Lot is lightly wooded; 4-ft relief; small pad
Driveway apron, culvert & city ROW permit	$4,500	City of Concord driveway permit; 25-mph local street
Survey, plat, zoning clearance, building permits & stormwater plan	$6,500	Concord ZCP + grading/stormwater review on an infill lot
Total horizontal & soft cost before vertical build	**$16,189**	All-in site budget

Contingency note: if the lot does not already have a water/sewer stub at the right-of-way, add an exploratory main-extension allowance of $5,000–$15,000 pending Concord Water Resources confirmation.

21. Highest and Best Use

Test	Finding
Legally permissible	Single-family detached dwelling — `P` **(permitted by right)** in RV. Townhome/duplex also permitted (`PS`) but not viable on one 0.208-acre lot. Multifamily requires a Special Use Permit and yields only 1.66 units at 8 du/acre.
Physically possible	Buildable envelope ≈ **5,074 sq ft** (102 × 50 ft). Supports a **1,600–2,200 sq ft two-story** home with attached two-car garage. Wide single-story plans do not fit.
Financially feasible	Townhome ARV band $378,488 and broader market $/sq ft of **$204** support a **2,200 sq ft / $449,000** exit with a **13.5% return on cost** (§23).
Maximally productive	**One new single-family detached residence**, 1,800–2,200 sq ft, two-story with front-loaded garage, built to the workforce/first-move-up buyer profile the assigned C-tier schools support.

Target floor plan: 2-story, 2,000–2,200 sq ft, 3 bed / 2.5 bath, 1,050–1,200 sq ft footprint, front-loaded 2-car garage recessed ≥4 ft (which also unlocks the CDO's 4-ft front-setback reduction).

22. Land Valuation (Google Maps Driving Distance Impact: 0–1 Mi vs. 0–3 Mi vs. 0–6 Mi)

Per the **Empty Driving Band Accuracy Rule**, any band with zero qualifying comps prints `0 Comps / N/A` and never borrows a range from another band. Uses not permitted in RV print `Not a permitted use`.

Development Use	0 to 1.0 Driving Mile	0 to 3.0 Driving Miles	0 to 6.0 Driving Miles
1 Single-Family Lot (`8%-15% of Average ARV`)	**0 Comps / N/A**	**0 Comps / N/A**	**$51,458 – $96,483** *(N=34)*
1 Duplex Structure · 2 Units (`8%-15% of Average ARV`)	**0 Comps / N/A**	**0 Comps / N/A**	**0 Comps / N/A**
1 Townhome Unit (`8%-15% of Average ARV`)	**0 Comps / N/A**	**0 Comps / N/A**	**$30,279 – $56,773** *(N=103)*
1 Triplex Structure (`8%-15% of Average ARV`)	**0 Comps / N/A**	**0 Comps / N/A**	**0 Comps / N/A**
1 Quadplex Structure (`8%-15% of Average ARV`)	**0 Comps / N/A**	**0 Comps / N/A**	**0 Comps / N/A**
Multi-Family Building Pad (Special Use Permit required)	Not a permitted use by right	Not a permitted use by right	Not a permitted use by right
1 Mobile/Modular Unit (MH Overlay only)	Not a permitted use	Not a permitted use	Not a permitted use

Zero-comp and permitted-use disclosures

- **Single-Family Detached:** 0 comps in the 0–1 mi and 0–3 mi bands. The 0–6 mi tier (34 comps) establishes an **Average ARV of $643,223** at **$206/sq ft** and **3,202 sq ft** average heated area, giving an **8%–15% single-lot band of $51,458 – $96,483**.
- **Townhouse:** 0 comps inside 3 miles. 0–6 mi tier: **103 comps, Average ARV $378,488** at **$204/sq ft**, giving **$30,279 – $56,773 per unit**.
- **All types combined (0–6 mi): 138 comps, Average ARV $443,253**, giving an **8%–15% band of $35,460 – $66,488** for one lot.
- **Duplex / Triplex / Quadplex:** 19 duplex records exist in the raw 6-mile radial pull but **none is a 2024–2026 completed new-construction sale inside 6.0 driving miles** — the rows read `0 Comps / N/A`.
- **Multi-Family:** RV permits multifamily **only by Special Use Permit (`SS`)**, so the row is marked not permitted by right rather than valued.
- **Mobile/Modular:** RV permits manufactured housing only within the **MH Manufactured Home Overlay**, which does not apply here — marked not a permitted use.

Valuation synthesis — and where the rule and the market disagree

The mandated **8%–15% of Average ARV** rule produces **$51,458 – $96,483** off the single-family band and **$35,460 – $66,488** off the combined band. Two independent checks pull the number **down**, and this report says so plainly:

Valuation signal	Value	Implied % of SF Average ARV ($643,223)
8%–15% rule — single-family band	**$51,458 – $96,483**	8.0% – 15.0%
Actual vacant-lot sales, lot-scale, 2.6–5.9 driving mi (14 records)	**$50,000 – $140,000** (median $90,000, mean $94,714)	7.8% – 21.8%; **median 14.0%**
County assessed land value of the subject	**$28,080**	**4.4%**
Neighbouring vacant Paradise Estates lots (assessed)	**$29,430 – $62,800**	4.6% – 9.8%

The rule band is an upper bound here, not a market value. The single-family comp average of $643,223 is driven by 3,600–4,124 sq ft executive homes in Annsborough Park and on Downshire Rd NW — product that is **not comparable** to a 2,000 sq ft build on a 78-ft-deep infill lot in a 1960s subdivision whose median assessed value is $88,450. The true land signal for this lot is the **actual vacant-lot market of $50,000–$140,000** for single residential lots 2.6–5.9 driving miles out, with a median of **$90,000** and a mean of **$94,714**, plus the directly adjoining Paradise Estates parcels assessed at **$29,430–$62,800**. Larger lot-and-tract sales in the same ring (3 records, $190,000–$225,000) and multi-acre/commercial assemblies (10 records above $250,000) are disclosed in Appendix C but excluded from the lot-scale band.

Land value conclusion: $45,000 – $70,000 — deliberately set **between** the two anchors, not on either of them:

- The lot-scale market median of **$90,000** sits **above** this range, but those sales are **2.6–5.9 driving miles away in materially stronger pockets** (Roberta Rd, Artdale Rd, Triumph Dr, Morehead Rd), not on a 78-ft-deep infill lot in a 1960s subdivision.
- The subject's own assessment of **$28,080** and its eleven vacant sister lots in Paradise Estates (**$29,430–$62,800**) sit **below** it.

Paying **$45,000–$70,000** clears the in-place assessment enough to move an off-market owner, while staying under the wider-market median because the depth constraint caps what can actually be built here. The 8%–15% rule range is published as required, but the offer range is anchored on verified vacant-lot sales and the residual pro forma (§23) — not on the executive-home ARV band.

23. Builder/Developer Profitability Analysis

Residual pro forma for a **2,200 sq ft two-story single-family residence** at the verified 0–6 mi average of **$204/sq ft**:

Pro-Forma Line	Value	Underwriting note
Projected gross ARV (2,200 sq ft @ $204/sf)	**$449,000**	0–6 mi verified average $/sq ft; townhome ARV is $378,488
Land acquisition	($55,000)	Within the $45,000–$70,000 land conclusion (§22)
Horizontal site work + city water/sewer taps	($16,189)	§20 itemisation
Vertical construction (2,200 sf @ $130/sf)	($286,000)	Production-builder trade cost for this submarket
Financing & carrying (9 months)	($16,000)	Construction-to-perm at ~9% on average draw
Sales & closing costs (5%)	($22,450)	Broker commission + settlement
Total project cost	**$395,639**	All-in
Net developer profit	**$53,361**	
Return on cost (ROC)	**13.5%**	On total cost

Sensitivity. At a $45,000 land basis the ROC rises to **16.4%**; at $70,000 it falls to **9.3%**. At a $400,000 ARV (a more conservative exit for a 2,200 sq ft home in this immediate neighbourhood) and $45,000 land, ROC is only **4.4%** — which is why the land basis, not the build, is where the margin lives on this parcel.

24. Risk Assessment

Risk	Severity	Finding & Mitigation
Lot depth below RV standard (78.5 ft vs. 100 ft)	**MODERATE**	The binding constraint. Mitigated by platted lot-of-record status (Plat Book 15/16) and CDO Table 7.6.2-A note 3. *Action:* obtain written buildability confirmation from Concord Planning before closing.
Water/sewer main tap location unknown	**MODERATE**	Utility district and published fees are verified, but no anonymous main layer exists and the county hydrant layer is empty here. *Action:* Concord Water Resources service availability letter. Budget $5,000–$15,000 for a possible main extension.
Comp band 3.6–6.0 mi only; 0 comps inside 3 mi	**MODERATE**	Pricing support is indirect. *Action:* underwrite to the townhome-anchored and vacant-lot-anchored numbers (§22), not the executive-home ARV band.
C-tier assigned schools	**LOW–MODERATE**	Caps buyer income and finish level. *Action:* build 1,800–2,200 sq ft workforce product, not 3,000+ sq ft.
12 deed restrictions / recorded plat notes	**LOW–MODERATE**	Plat Book 15/16 predates modern standards; pre-1960 restrictions can still run. *Action:* full title commitment with a restriction read.
Flood / wetland / environmental	**ZERO**	Zone X (36/36 samples), no SFHA, no NWI polygon on parcel, no watershed overlay, Mecklenburg loam soils.
Topography / grading	**LOW**	4 ft relief, ~5.1% average grade. Rear-yard stormwater discharge toward the west ravine should be addressed in the grading plan.
Access / frontage	**ZERO**	116.49 ft on a paved city street, inside city limits, city-issued driveway permit.
HOA / assessment	**LOW**	No active mandatory HOA identified; confirm in title.

25. Final Investment Recommendation

- **Overall Land Feasibility Score: 7.9 / 10 — Feasible Platted Infill Homesite**
- **Buildability Rating: 7.6 / 10** (high on flood, grade, soils and frontage; reduced for the 78.5-ft depth vs. the 100-ft RV standard)
- **Development Risk Rating: MODERATE** — entitlement risk is low, but the depth nonconformity and the unverified utility tap are real, resolvable, pre-closing items
- **Recommended Product:** one **1,800–2,200 sq ft two-story single-family detached** residence, front-loaded two-car garage recessed ≥4 ft, 3 bed / 2.5 bath, finished floor ≥666 ft
- **Recommended Land Basis: $45,000 – $70,000**; do not exceed **$75,000**
- **Expected Exit ARV: $449,000** (±5% to $471,450), supported by a **13.5% ROC**

Actionable verdict: PURSUE — CONDITIONALLY. `2758 Plantation Rd NW` is a genuinely clean infill lot: by-right single-family zoning in the City of Concord, zero flood, zero wetlands, gentle grade, 116 ft of paved city frontage, and a purchase basis in the $45,000–$70,000 range against a county assessed land value of $28,080. It is **not** a land-banking play and it is **not** a subdivision play — it is one house on one platted lot.

Pre-closing checklist (do these five things before signing):

1. **Written buildability confirmation from the City of Concord** on the sub-standard 78.5-ft lot depth for a platted lot of record under CDO Table 7.6.2-A note 3 and §9.12.
2. **Concord Water Resources service availability letter** — confirm water and sewer mains, sizes, distance to tap, and whether stubs exist at the right-of-way.
3. **Full title commitment** including a read of the Plat Book 15 / Page 16 note block and any recorded covenants on the Sellers-family parcels.
4. **Survey verification** that the existing $9,500 outbuilding sits clear of the proposed building envelope, or budget its removal.
5. **Grading/stormwater concept** confirming rear-yard discharge west toward the ravine is permittable under Concord's stormwater requirements.

26. Data Sources & Verification Ledger

#	Source	Endpoint / Method	What it verified		
1	**Cabarrus County GIS — Address points**	`location.cabarruscounty.us/arcgisservices/rest/services/DataExplorerSearch/MapServer/0/query` — `addressnum=2758 AND road_name LIKE 'PLANTATION%'`	PIN, PIN14, Real ID, acct, owner, mailing, `UseCode 0200`, land/building/obxf/market values, `DISTRICT CS20`, `PermitDist Concord`, `Floodway/100yr/500yr = No`, assigned schools, inspector contacts		
2	**Cabarrus County GIS — WebParcels (geometry)**	`.../DataExplorerSearch/MapServer/2/query` — `PIN14='45999621090000'`, native + EPSG:4326	Native ring (7 vertices), `Shape.STArea() = 9,067.68 sq ft`, `Shape.STLength() = 388.93 ft`; computed perimeter reconciles exactly		
3	**Boundary measurement**	Euclidean segment lengths and compass bearings on the native ring	Frontage 116.49 ft (bearing 100.6°), west side 77.22 ft, rear 115.03 ft, east side 61.42+13.40+5.37 = 79.79 ft		
4	**Cabarrus County — Zoning**	`.../Zoning/MapServer/6/query` point-intersect	`ZONINGCODE = RV`, `CITYCODE = City of Concord`, `ETJ = no`, `OLDZONING = R-3`, `UDO_ID 337`; county description table returned the "6,000 sq ft / 7 du/ac" legacy text		
5	**Concord Development Ordinance, Article 7** (`apps.concordnc.gov/legacy/planningweb/CDO/Article 7.pdf`)	PDF retrieved, `pdftotext -layout` + `-bbox-layout` column mapping	Table 7.6.2-A: RV = 7,500 sq ft / 8 du/ac / 0.50 ISR / 15 ft frontage / 50 ft width / 100 ft depth / 35 ft height. Table 7.6.2-B: 24 ft front / 7 ft side / 5 ft rear; note 3 = 4-ft front reduction; note on recorded-plat governance		
6	**CDO Article 8 — Use Table 8.1.8** (`Article 8.pdf`)	Same method; column x-positions resolved from PDF word bounding boxes	RV column: Single-Family Detached `P`; Single-Family Attached `PS`; Duplex/Triplex `PS`; Multifamily/Apartment `SS`; Accessory Dwelling `PS`. Manufacturing housing restricted to MH Overlay		
7	**CDO Article 9** (§9.12, §9.9.7)	Firecrawl + local text extraction	R-CO district and recorded-plat dimensional governance; nonconforming-structure protections		
8	**FEMA NFHL**	`hazards.fema.gov/arcgis/rest/services/public/NFHL/MapServer/28/query` — centroid + 36-point interior grid	Zone X, `SFHA_TF = F`, DFIRM `37025C`, panel `4599`. **36/36 interior samples Zone X**		
9	**Cabarrus County flood polygons**	`opendata/MapServer/29` (Flood Plain 100 year) polygon intersect	0 intersections — independent confirmation of no SFHA		
10	**USFWS National Wetlands Inventory**	`fwspublicservices.wim.usgs.gov/wetlandsmapservice/rest/services/Wetlands/MapServer/0/query` — polygon intersect + 150 m buffer	**0 wetlands on parcel**; nearest = 2.27 ac `R4SBC` Riverine, centroid 235 m west		
11	**Cabarrus County 2-ft contours**	`opendata/MapServer/10` — polygon intersect, `Interval = 2`	Contours **662 ft** (OBJECTID 53280) and **666 ft** (OBJECTID 41736) cross the parcel → 4 ft relief		
12	**USGS 3DEP EPQS**	`epqs.nationalmap.gov/v1/json` — centroid + 8 radial points at 40 m and 80 m	Centroid **670.17 ft**; on-lot gradients 1.6%–4.7%; 63.1% reading at 80 m W belongs to the off-site ravine		
13	**NRCS Soil Data Access**	`sdmdataaccess.sc.egov.usda.gov` — mapunit/component query	**Mecklenburg loam, 2 to 8 percent slopes** (`MeB`, MUKEY `111653`), 85% component share, 5% representative slope		
14	**Cabarrus County streets**	`DataExplorerSearch/MapServer/1` — 200 m buffer	`PLANTATION RD NW` SEGID `1003`, even-side range 2706–2800 containing 2758, 25 mph, City of Concord both sides		
15	**Municipal & fire district**	`hydrants/MapServer/2` and `/3`	`DISTRICT = CITY OF CONCORD`; `FireISO ISORating = 1`		
16	**RealtyAPI — Zillow / Realtor.com / Redfin**	zillow	realtor	redfin.realtyapi.io/search/bycoordinates — `radius 6, paginated,` homeType across Houses/Townhomes/Duplex/Multi-family/Manufactured	693 candidate records, 2024–2026 build years, 2025–2026 sale dates
17	**Google Maps routing (headless Chrome CDP)**	`google.com/maps/dir/{origin}/{destination}` — 14 parallel tabs, then a 5-tab retry pass at lower concurrency	Driving miles, whole minutes, and named routes for **all 154 distinct comp streets (0 nulls after retry)**, 27 vacant-land comps, and 9 landmark destinations		

#	Source	Endpoint / Method	What it verified
18	**County CAMA reconciliation of every comp**	Layer 0 address → PIN14 → layer 2 `YEAR_` + `BuildingValue`	Proved each surviving comp is **completed new construction on an improved parcel**; rejected 2022–2023 resales and $0-building-value vacant-land sales
19	**City of Concord FY2024-25 Fees, Rates & Charges**	Official PDF (`concordnc.gscreates.com/.../4_11_25 FY 25 Fees and Charges Schedule.pdf`)	Water SDF $1,632/ERU SF; wastewater SDF $1,159/ERU SF; water install+meter $1,398; sewer 4" installation $1,000; monthly base $4.04; stormwater $3.10/mo
20	**School accountability data**	GreatSchools, NC public school profiles, NC DPI-aligned proficiency reporting	Carl A. Furr 5/10 (782 students, 15:1); Roberta Road MS 4/10 (906 students, 17:1, ~49% math / 57% reading); Jay M. Robinson HS 4/10 (1,210 students, 18:1, 65–69% math / 55% reading)

Unresolved / must verify (stated honestly, not papered over):

- **Parcel-specific Future Land Use designation** — Concord's GIS server (`maps.cityofconcord.org`) returns HTTP 401 to anonymous requests and the FLU map is a static PDF; the designation in §5 is **inferred from the adopted RV zoning**, not machine-verified.
- **Water/sewer main location, size and stub status at the parcel** — no public anonymous main layer exists.
- **Recorded deed restrictions / covenant content** — requires a title commitment.
- **HOA existence and dues** — no active mandatory HOA identified, but no registry record proves the negative.
- **Exact NC DPI School Performance Grade letter** for each assigned school — third-party ratings are cited; the formal SPG letter should be pulled from NC DPI's report-card portal.

Appendix A — Complete Master Registry: All 138 Verified New-Construction Comps (0.0 – 6.0 Driving Miles)

Unabridged registry of every verified comparable, ordered from `#1` at **3.60 mi · 7 min** to `#138` at **6.00 mi · 12 min** by Google Maps road driving distance:

Appendix B — Excluded Comp Records (58 unique addresses) and the Rule Each Violated

These records appeared in the raw portal pull but are **not** completed 2024–2026 new-construction sales inside 6.0 driving miles. None was excluded for price convenience — each is a documented rule violation.

Excluded Record	Sold Price	Reason Excluded
6516 Weddington Rd, Concord, NC 28027	$247,000	Address resolves to an 11.57-acre unbuilt tract (PIN `46907054440000`, $0 building value) — acreage sale, not a home sale
422 Beacon St NW, Concord, NC 28027	$266,000	County build year **2008** — resale, not new construction
